FOR IMMEDIATE RELEASE

**SUPERIOR AIR PARTS ANNOUNCES THAT MAC LITTLE HAS JOINED
THE COMPANY AS FACTORY REPRESENTATIVE**

Little will be responsible for sales of the company's Millennium Cylinder, experimental XP-Engines and FAA certificated Vantage Engine lines throughout the eastern U.S.

Coppell, TX, June 23, 2014 — Scott Hayes, V.P. Sales and Marketing for Superior Air Parts, Inc., announced today that aviation industry veteran Mac Little has joined the company as its new Factory Representative.

“In today’s highly competitive market, while having the right products at the right price is critical, it’s not always enough to set a company apart. One way Superior is striving to differentiate itself is through providing your customers and dealers with a higher level of personalized service,” Hayes said. “Mac has been a front line customer contact for a long time and he’s very knowledgeable and well respected in the industry. We are very proud to have him on our team.”

“I’m delighted to be joining a team with so much passion, enthusiasm, vision and dedication to enhancing the overall experience for our customers and distributors,” Little said. “One of my first goals is to get out among our current and prospective customers and tell the Superior story. A lot of people just don’t understand what a vibrant and healthy company Superior really is and what innovations they’ve introduced in their products.”

“As an A&P I understand how these innovations can help aircraft owners decrease their maintenance and operating costs,” he said. “It’s my charge to get that message to the FBOs and engine shops so they can help their customers make an informed decision when it comes time to repair or overhaul their engine.”

Prior to joining Superior Air Parts, Little was a Field Service Manager for Cirrus Aircraft. He has also held key positions with Aerospace Products International, Teledyne Continental Motors, and AirShares Elite.

Little holds a Bachelor of Science, Business Management degree from Troy State University. He is an FAA A&P mechanic and holds a Private Pilot's License.

About Superior Air Parts, Inc.

Superior Air Parts, Inc., a wholly owned subsidiary of Superior Aviation Beijing, is a leading manufacturer of FAA approved aftermarket replacement parts for Lycoming and Continental aircraft engines. In addition, the company manufactures the FAA certified Vantage Engine and the XP-Series Engine family for experimental and sport aircraft builders.
